Nursing 213: Complex Health Concepts
- Burns—two modules
- Concept-Based Case Studies: Acute Cardiac Unfolding, Bone Marrow Transplant and Septic Shock, Chronic End Stage Renal Failure, Dialysis, Diabetic Ketoacidosis, Cholelithiasis
- National Patient Safety Goals
- Pancreatitis Unfolding case study, Hypovolemic Shock/DNR case study, Renal case study, Septic Shock unfolding case study
- Congenital Heart Disease
- Emergency Preparedness
- Pregnancy Induced Hypertension—five modules
- Preventing Medication Errors
- Ventral Septal Defect—two modules

Instructor Resources
- Integrating Contextual Teaching and Learning into the Classroom: Using Digital Technology
- iPad Training Modules—four modules

2012 Webinar and Workshop Archives
- Getting Started with Accreditation, held January 27, 2012
  Presented by Dr. Camille Reese, Ed.D, MSN, RN, CNE
  Catherine Freeman, MSN, RN, CNE
  Janet Arthurs, Ed.D, RNC
- Implementation of the New NLN Educational Competencies, held March 29, 2012—video recording
  Presented by Dr. Sue Field, DNP, RN
- Using Unfolding Case Studies in the Nursing School Classroom, held May 1, 2012
  Presented by Lisa Day, PhD, RN, CNRN, CNE
- Using Unfolding Case Studies in the Nursing School Classroom, Part 2: Collaboration and Active Learning, held May 21, 2012
  Presented by Lisa Day, PhD, RN, CNRN, CNE
- Transforming Nursing Education Through the Use of Concept-Based Learning Activities, held May 8, 2012
  Presented by Carol Thorn, MSN, RN

NC-NEC Regional Center for Nursing Excellence: 2012 Teaching and Professional Development Modules

The NC-NEC Regional Center for Nursing and Allied Health at Mitchell Community College has developed learning modules for use in the classroom, as individual assignments, and/or for faculty development. The modules contain PowerPoint presentations, video demonstrations, and case studies designed for use by colleagues throughout the state. Modules can be accessed at the following websites—exploretelenor.org and www.nc-net.info/nursingcenter.php

Nursing 111: Introduction to Health Concepts
- Advance Directives
- Compassion Fatigue
- Concept-Based Case Studies: Integumentary, Legal Issues, Pain
- Evidence-Based Practice
- Fluid and Electrolytes: 2 modules
- Grief and Bereavement
- Grief and Grieving in Children
- Hospice and Palliative Care Basics
- Learning Activities: Clinical Based Pain Assessment, Clinical Learning Activity Report
- National Patient Safety Goals
- Pain Management
- Physical Assessment
- Preventing Medication Errors
- Safety: Patient Environment
- Sentinel Events and Reporting
- Spirituality at the End of Life
- Wound Management

Nursing 112: Health-Illness Concepts
- Appendicitis
- Anxiety Disorders—Generalized Anxiety Disorder, Panic Disorder, Acute Stress Disorder
- Concept-Based Case Studies: Dehydration, Obesity, Pneumonia and CAD, Respiratory
- Diabetes
- Fluid and Electrolytes
- Clinical Learning: Fluid and Electrolytes
- National Patient Safety Goals
- Obesity—four-part module series
- Ostomy Nursing Care
- Pediatric Respiratory Disorders
- Preventing Medication Errors

Nursing 113: Family Health Concepts
- Autism/Attention Deficit Hyperactivity Disorder (ADHD)
- Concept-Based Case Studies: High Risk Maternal, Neonatal, Normal Childbirth, Pediatric, Post Partum Shock/Hypovolemia, Post Partum Unfolding, Teen Parenting
- Failure to Thrive
- Intrapartum Obstetrical Complications
- Intrapartum: Precipitous Delivery
- National Patient Safety Goals
- Pediatric Respiratory Disorders
- Prematurity
- Preventing Medication Errors
- Sexually Transmitted Diseases
- Sudden Infant Death Syndrome

Nursing 114: Holistic Health Concepts
- Alzheimer’s Disease and Related Dementias
- Concept-Based Case Studies: Adolescent Psych/Mental Health, Anorexia, Bulemia, Dementia/Alzheimer’s Disease, Fluid and Electrolyte, Neuro/Endocrine, Pediatric Critical Care-Non-Accidental Trauma, Perfusion HTN Teaching, Surgical
- Deep Vein Thrombosis

Nursing 211: Health Care Concepts
- National Patient Safety Goals
- Ostomy Nursing Care—three modules
- Preventing Medication Errors

Nursing 212: Health System Concepts
- Concept-Based Case Studies: Acute Respiratory Failure—Ethics, Child Abuse, Elderly Poisoning, Ethics, Mental Health and Prioritization, Pediatric Critical Care-Non-Accidental Trauma, Prioritization
- Immunity—Rheumatoid Arthritis case study
- Learning Activities—three modules
- Mobility—Fractures pediatric and adult case study
- National Patient Safety Goals
- Preventing Medication Errors
- Prioritization—three modules
